

IN-SEAL WLL

Insulation & Engineering Company

COMPANY PROFILE

Vision

- Keeping our name synonymous with reliability/customer satisfaction/value provider and innovation

Mission

- Profitable growth through Superior Customer Service, Innovation, Quality, Competitive Pricing, On time Deliveries

Values

- Integrity
- Reliability
- Transparency
- Mutual Respect

Our Strengths

- Domain Knowledge of Middle East and North Africa region
- Technical Competence
- Application Knowledge
- Customer Relationships
- Understanding of Cultural and Geo Political issues
- Knowledge on buying patterns for various companies in different segments
- Competent Team
- Key Account Management
- Value Sellers

IN-SEAL WLL
Insulation & Engineering Company

In-Seal is a company operating in Kingdom of Bahrain and Kingdom of Saudi Arabia

We are a professional team with cumulative experience of 90 years in Management, Sales, Marketing and Finance. We establish longer and closer working relationships with our clients and supplier, not only provide immediate and reliable service but to continually exceed expectations and goals.

We create commercial flows, import and export products, arranging and managing international projects with our partners. Supported by our network, we are able to integrate all these functions with our experience. Our numerous competencies allow us to respond to the needs of industries looking at matching our customer needs.

We look forward to welcoming you to our company and work to develop and enhance your current business in Middle East and North Africa region.

Our Business Verticals

Packaging / Automation and Material Handling

Maintenance, Repair and Overhaul

Oil and Gas

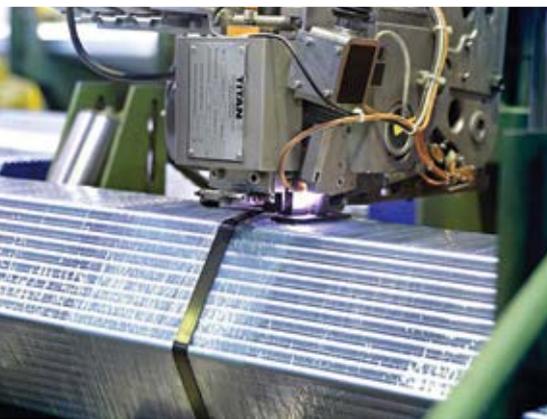

Health and Safety

Metals – Ferrous

Solutions Offered: Automatic Circumferential and Eye Steel Strapping Machines, Sheet Packing Lines, Slit Coil Packing Machines, Pneumatic Strapping Hand Tools, Manual Tools, High and Medium Tensile Steel Strapping, High Quality Packaging Seals, Automatic Polyester Eye and Circumferential Strapping Machines, Pneumatic and Manual/Battery Tools for PET Strapping

Metals- Non-Ferrous:

- Aluminium Ingots/Billets
- Aluminium Coils and Extrusions.

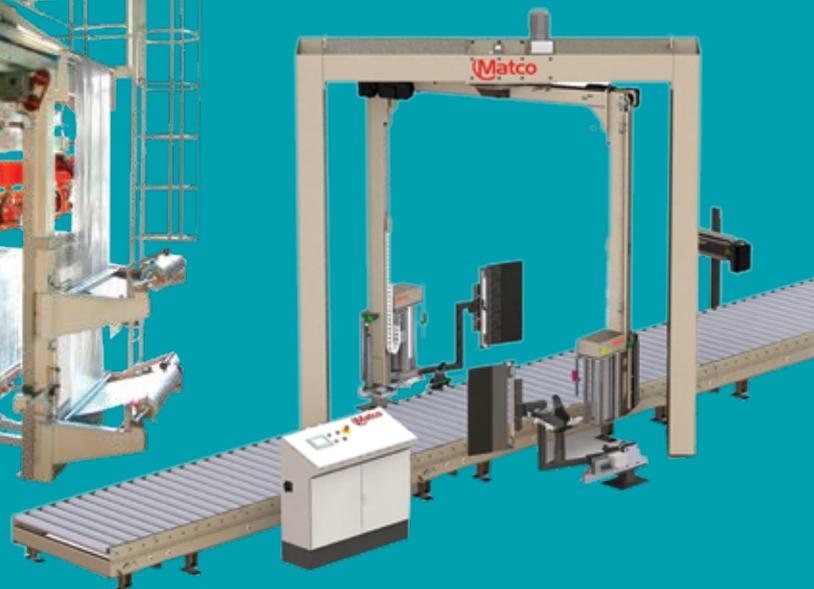

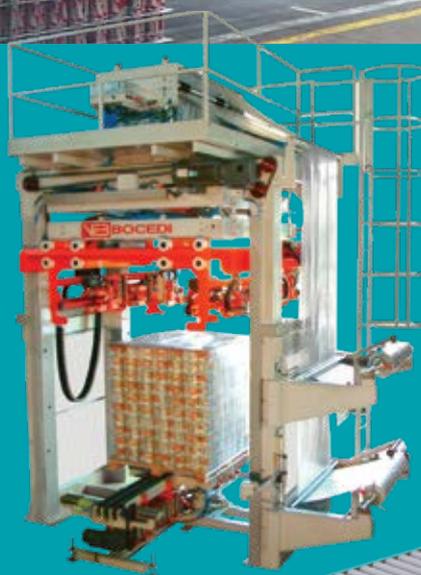

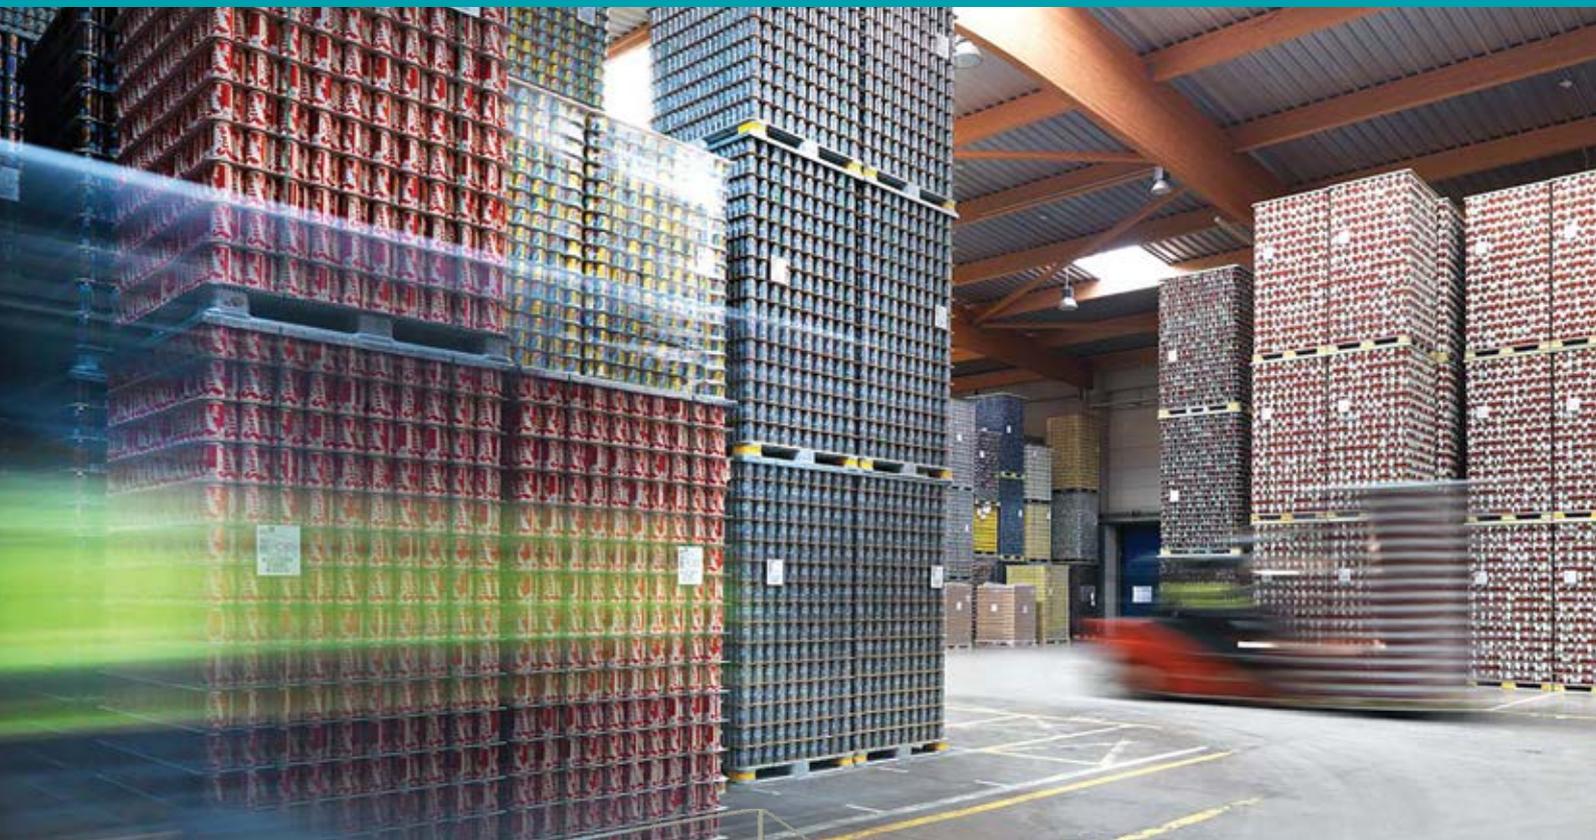

Solutions Offered: Automatic Circumferential and Eye Strapping Machines for Aluminium Coils, Pneumatic Strapping Hand Tools, Manual Tools for Steel Strapping, High and Medium Tensile Strapping, High Quality Packaging Seals, Automatic Polyester Eye and Circumferential Strapping Machines, Pneumatic and Manual/Battery Tools. Filter Bags for Wet and Dry Filtration.

Can and Beverage:

- Empty Aluminium Cans
- Filled Aluminium Cans- PEPSI/COKE/ JUICES/MILK PRODUCTS
- Empty Glass Bottles.

Solutions Offered: Automatic Vertical and Horizontal PET/PP Strapping Machines, High Speed Ring and Arm Stretch Wrapping Machines, Pallet Stretch Wrappers, PET Straps, PP Straps, Plastic Pallets, Tier Sheets and Plastic Top Frames for REUSABLE Packaging. Stretch and Shrink Hood Systems.

PACKAGING / AUTOMATION AND MATERIAL HANDLING

Construction:

- Float Glass
- Bricks/Blocks/Pavers/Aerated Concrete.

Solutions Offered:

Automatic Vertical and Horizontal Strapping Machines, Consumables like Steel Strap/PET Strap, Pneumatic and Manual Hand Tools for Steel and PET, Stretch Hood Systems.

Durables:

- Air conditioners, Washing Machines and Dishwashers.

Solutions Offered:

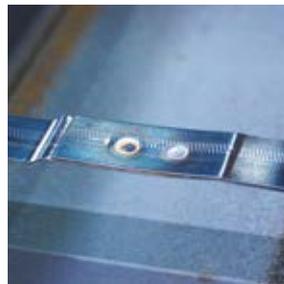

Automatic Vertical and Horizontal Strapping Machines, Consumables like PET and PP Strapping, Battery Tools for PET and PP

Lashing/Securing/ Logistics and Bailing:

Solutions Offered:

High Tensile Steel Strapping, Textile Strapping, Lifting Straps, Pneumatic / Manual Steel and Textile Strapping Hand Tools.

Transpak is the Asia's technology leader, and the World's value leader in the industry.

Transpak is offering better equipment with better service level to help our partners grow business together with us. Transpak is the largest strapping equipment maker in Taiwan, the Asia's technology leader, and also the world's value leader in the industry. Transpak offers customers with the most comprehensive product line of strapping equipment in the industry.

TransPak Products

- Strapping Tools
- Semi-Auto Strapping Machines
- Automatic Strapping Machines
- Fully Automatic Strapping Machines
- Corrugated Strapping Machines
- Print Media Strapping Machines
- Side-Seal Strapping Machines
- Pallet Strapping Machines
- Strapping Heads

ABB Robotics

ABB is a leading supplier of industrial robots and robot software, equipment and complete application solutions. We're at home in 53 countries and have installed more than 400,000 robots, supported by the broadest service network and offering in the industry.

Collaborative robots can take operations to the next level. They are able to work hand

in hand with humans and even cooperate with them on the same tasks – balancing the imperative for safety with the need for flexibility and productivity. As a pioneer of collaborative automation, ABB is continuously expanding its portfolio in this area.

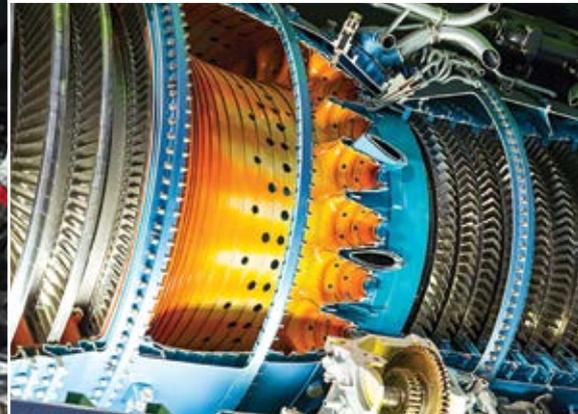

Chemicals & Solutions

- Magnetic Particle Inspection
- Liquid Penetrant Inspection Materials

Solutions Offered:

- **Fluorescent Type:** Oil Based, Water Based
- **Non Fluorescent Type:** Dry Method, Wet Method.
- **Visible/Non Fluorescent Type:** Solvent Removable Penetrant ZChek PT, Solvent / Non Aqueous Cleaner ZChek CR, Solvent / Non Aqueous Developer ZChek DL, Water Washable Penetrant ZChek PTW, Solvent / Non Aqueous Developer ZChek DL
- **Fluorescent Type:** Water Washable Level1 Penetrant ZChek FP1, Dry Powder Developer ZChek D90, Water Washable Level2 Penetrant ZChek FP2, Dry Powder Developer ZChek D90

MAINTENANCE, REPAIR AND OVERHAUL

DAUBERT

Daubert offers a full line of anti-corrosion packaging solutions designed to keep Heavy Equipment OEM's, users, and other key construction professionals operating at peak efficiency throughout critical processes. All proprietary brand chemistries are specially formulated to deliver superior performance under even the most challenging conditions. No other VCI company in the world has more years of time-tested, proven experience in the integrated development of industrial grade corrosion preventive packaging solutions.

PRODUCTS

Hakuform®

- Water Soluble Cutting Fluids
- Neat Cutting Oils

Hakupur®

- Advanced Aqueous Cleaners

Nox-Rust®

- Rust Preventive Liquids
- Rust Preventive Waxes

Daubert VCI®

- VCI Films
- VCI Papers

Evapo-Rust®

- Rust Removers

Daubrite®

- VCI Devices & Desiccants
- Nikutex®
- Wash Thinners

Controx®

- Paint Strippers

Isogol®

- Paint Coagulants

Decorrdal®

- Pre Treatment Chemicals

T400®

- Effluent Treatments

SERVICES

- Ccpp Solution
- Engineering Program
- Value Analysis / Value Engineering
- Daubert® 360 Program

MAINTENANCE, REPAIR AND OVERHAUL

Zincbrite is a Shiny cold galvanizing coating specially designed with zinc and aluminium powder to meet the requirements of hot dip galvanized parts. The coating protects metal surfaces against rust and corrosion giving a flexible coat with bright shiny finish

Features:

- Long term rust protection coating on welded and drilled surfaces
- Acts as an anti rust primer
- Touch up for galvanized surfaces
- Offers excellent mechanical toughness
- Coating resistant to salt water and temperatures up to 350°C
- Lead and chromate free
- Excellent adhesion to metals
- Easy to apply
- No ozone depleting solvents

Filtration solutions

- Mining, mineral and chemical industries
- Pulp, fiber and paper industries
- Environmental filtration solutions
- Other process industries

Valmet develops and manufactures filter fabrics for the chemical and mining sectors, for the pulp, fiber, board and paper industries, as well as for energy production, waste processing plants, and the food manufacturing industry. We also specialize in ironer felts for commercial and institutional laundries.

MAINTENANCE, REPAIR AND OVERHAUL

- Wear parts for crushers
- Spare parts for equipment
- Mill lining
- Pumping equipment components
- Conveyor components
- Wear-resistant solutions
- General industrial purpose parts

Element Group is a versatile service company. We produce spare and wear parts under our own brand Element®.

Element manufacture parts for crushing, screening and pumping equipment, in addition to conveyor components, wear-resistant materials and mill linings. We also supply general purpose industrial parts, such as bearings, standard and non-standard fasteners, filter elements and V-belt transmissions.

Element provide a full range of technical and service support. We select analogues, customize spare parts for specific operating conditions, repair spare parts and conduct operational audits of customers' equipment.

OIL AND GAS

- LEOGEN Deutz Engine Power Generators from 10KVA to 500KVA
- LEOGEN Air Cooled Generators from 5KVA to 125KVA
- LEOGEN Volvo Penta Engine Powered Diesel Generators 250KVA to 650KVA
- LEOGEN Generators with Perkins Engines from 9KVA to 2250KVA

LEOGEN Generators Features:

- Easy to install unit
- High reliability in extreme operation condition
- Long service life
- Worldwide distribution network
- CPCB II Compliant
- Compact design saves installation space thus construction cost
- Low emission ensure environmentally friendly operation
- Low operating costs
- Excellent smooth running characteristic
- Low maintenance requirements and legendary durability

OIL AND GAS

- Emergency showers
- Emergency eyewashes / facewashes
- Tank Showers

Emergency showers are important in risky environments. It is extremely important that emergency showers are in proximity and can be reached directly. If an accident occurs, flushing must start immediately after the victim has been exposed to dangerous liquid or material. Delayed "first aid" treatment can result in severe injuries.

Eyewashes are important in risky environments. It is extremely important that eyewashes is in proximity and can be reached directly. If an accident occurs, flushing must start immediately after the victim has been exposed to dangerous liquid or material. Delayed "first aid" treatment can result in severe injuries.

HEALTH AND SAFETY

Bactakleen provides a synergy of innovative anti bacterial treatments and advocate the importance of good public health and hygiene standard. Bectakleen offers the world's first 2-in-1 anti-bacterial treatment system that effectively kills 99.9% of the germs and bacteria inside your vehicle, bedroom, office, toilets and kitchen.

HEALTH AND SAFETY

Contact surfaces will be cleaned and treated in critical areas such as:

- Cars, buses, vans, trucks, planes, trains, limousines and taxis – steering wheels, gear knobs, hand brakes, switches, railings
- Homes – bedrooms, toilets, living room and kitchen
- Offices – conference rooms, office rooms, kitchen, pantry and toilets, building wall exteriors
- Restaurants – kitchen, toilets and dining areas
- Hotels – bedrooms, common areas, lobby and toilets
- Schools – classrooms, library, toilets, cafeteria and playground
- Shopping malls – toilets, common areas
- Hospitals and clinics – toilets, surgical theatre, treatment rooms, recovery rooms

Bactakleen Ultra Mist is tested and proven by international laboratories such as TUV, SGS and Chemlab with efficacy of up to 99.99998%!
